

EPACK CONNECT

Newsletter/September 2024/Issue - IV

September 2024 has been a month of dynamic events, collaborative opportunities, and notable recognitions for EPACK PREFAB. We continue to establish new benchmarks in the pre-engineered building (PEB) and prefab construction industry. This edition of the EPACK PREFAB Newsletter highlights the key moments that are driving our commitment to innovation, sustainability, and excellence.

In This issue:

- Leadership Speak
- Media Highlights
- Business Institute's Industrial Visit
- EPACK Leaders on Josh Talks
- Engineers Day Celebration
- Media Delegates Visit
- Daughter's Day Celebration
- Conversations on Logistics and
- Warehousing at ASSOCHAM
- Project Updates

Leadership Speak

Mr. Sanjay Singhania
(Managing Director)

At EPACK PREFAB, we understand that the pre-engineered building (PEB) industry requires a focus on innovation and sustainability to meet current market needs effectively. By incorporating advanced design techniques and energy-efficient materials, we ensure that each project is completed with an emphasis on responsible practices and long-term value. Our commitment to sustainable practices and design excellence across our facilities in India has enabled us to deliver high-quality, cost-effective solutions to our clients.

Through continuous investments in research and development, we remain focused on enhancing our capabilities to meet the demands of the evolving construction industry. Our priority is to maintain high standards of quality while providing environmentally responsible solutions that align with the industry needs.

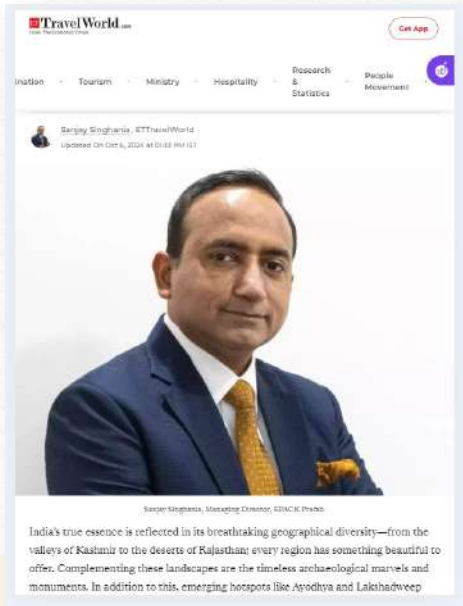

Sustainability is a core principle at EPACK PREFAB, where we continuously strive to integrate responsible growth practices into our operations. By efficiently utilizing resources and reducing environmental impact at our manufacturing plants and project sites, we are dedicated to ensuring that our approach to PEB construction benefits to both our clients and the environment.

Our multidisciplinary team and advanced manufacturing capabilities allow us to deliver projects that stand the test of time, while also focusing on the efficient use of resources. By staying committed to innovation and collaboration, we aim to set new benchmarks for sustainable infrastructure and responsible construction practices.

Mr. Nikhel Bothra
(Director)

Media Highlights

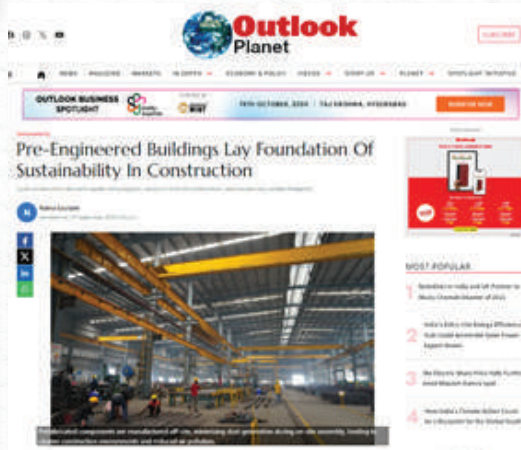

Our Managing Director, Mr. Sanjay Singhania shared his views on ET Travel World, discussing how PEB and prefabricated structures are the solution to the accommodation needs of the rapidly growing tourism industry.

Our Executive Director, Mr. Nikhel Bothra emphasizing his views on ET Now Machinist on the crucial role of engineers in nation building and promoting sustainable development.

EPACK Prefab's Darbhanga Airport project for Airports Authority of India (AAI) under the UDAN scheme was featured on TV9 Bharatvarsh.

Our Executive Director, Mr. Nikhel Bothra, shared his insights on the future of green steel, highlighting EPACK Prefab's collaboration with major steel manufacturers.

Our Executive Director, Mr. Nikhel Bothra shared his views on B2B Purchase on why prefabricated building technology is the key to faster construction, design flexibility and sustainability.

Life at EPACK

EPACK Receives Appreciation from Cello for Factory Building Project

In recognition of our commitment to quality and client satisfaction, EPACK PREFAB proudly received a 'Certificate of Appreciation' from Cello for the successful completion of their 1.27 lakh sq. ft. factory building project in Falna, Rajasthan. This honor reflects EPACK's strong focus on safety, precision, and adherence to the highest quality standards throughout the project.

The Cello project was notable for its flawless execution, with the team achieving zero accidents during the entire process. We are proud to be a trusted partner for Cello, delivering results that meet and exceed expectations.

Business Institute's Industrial Visit - A Glimpse into the Future of Construction

On September 28th, EPACK PREFAB was privileged to host an industrial visit for students from the prestigious I Business Institute. The future leaders in business and management were provided a unique opportunity to explore the intricacies of PEB and prefab building solutions at our state-of-the-art manufacturing facility in Greater Noida.

During the visit, students gained first-hand insights into the engineering marvels of PEB structures—from initial design and fabrication to the final erection on-site. This hands-on experience offered a closer look at how EPACK PREFAB is driving efficiency and innovation in the construction industry.

For the students, it was not just a visit but a deep dive into the future of construction.

Life at EPACK

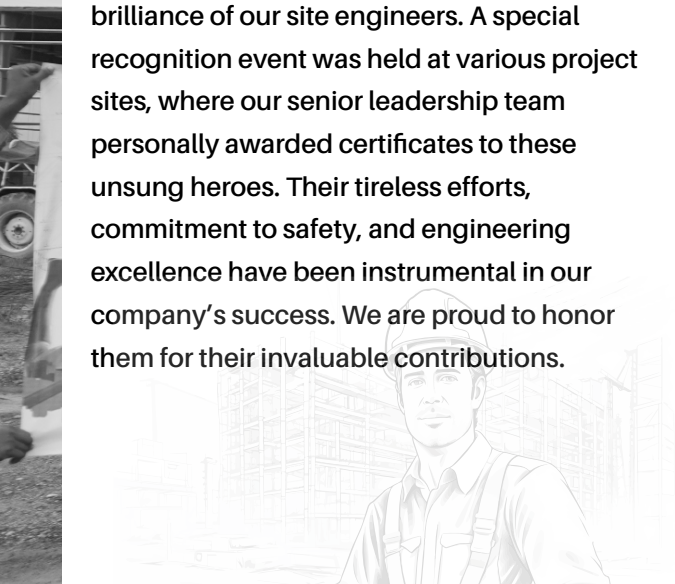

EPACK Leaders Featured on Josh Talks Podcast

EPACK PREFAB's leaders, Managing Director & CEO Mr. Sanjay Singhania and Chairman Mr. Bajirang Bothra, were featured on the Josh Talks podcast. In a thoughtful discussion with Aakash Chaudhry, they shared insights into EPACK's journey, the challenges faced along the way, and their vision for the future of prefab construction. The episode, which aired on 16th September, provided a closer look at EPACK's role in advancing India's construction industry through innovative and sustainable solutions.

Engineers Day: Honoring Our Unsung Heroes

On the occasion of Engineers Day, EPACK PREFAB celebrated the dedication and brilliance of our site engineers. A special recognition event was held at various project sites, where our senior leadership team personally awarded certificates to these unsung heroes. Their tireless efforts, commitment to safety, and engineering excellence have been instrumental in our company's success. We are proud to honor them for their invaluable contributions.

EPACK Event Highlights

Media Delegates Visit EPACK Ghiloth Plant: Pioneering Innovation in Manufacturing

EPACK PREFAB had the privilege of hosting media delegates from a leading agency at our Ghiloth (Rajasthan) manufacturing plant. The visit offered a comprehensive view of our advanced production processes and the innovation fueling our growth. The tour concluded with an engaging Q&A session led by our Executive Director, Nikhel Bothra, who shared EPACK's vision for the future of construction in India. The discussion highlighted our key sustainability initiatives and the steps we are taking to reshape modern infrastructure. This event underscored our commitment to driving change in the construction industry.

Daughter's Day Celebration: Empowering Dreams

At EPACK PREFAB, we believe in empowering the next generation. In celebration of Daughter's Day, our team visited 'Kanya Gurukul, Noida' where we celebrated the spirit of young girls and their aspirations. The event was made even more special by the distribution of designer dresses, created by Ms. Divisha Singhania, the daughter of our MD, Mr. Sanjay Singhania. Having completed her studies in fashion designing in the USA, Ms. Singhania's contribution was a heartfelt gesture of creativity and giving back to the community.

EPACK Event Highlights

EPACK at ASSOCHAM: Leading the Conversation on Logistics and Warehousing

Our Executive Director, Mr. Nikhel Bothra, took center stage at the National Conference on Logistics and Warehousing for 'Viksit Bharat,' organized by ASSOCHAM. As part of a distinguished panel of industry leaders, Mr. Bothra shared insights on key developments in logistics, supply chain management, and warehouse automation. The panel discussion, which featured prominent names like Manu Raj Bhalla (President, Warehousing Association of India), and Satish Shukla (Co-Founder, Addverb), delved into the future of automation, digitization, and best practices in inventory management. Mr. Bothra's contributions highlighted the role of PEB structures in creating advanced, efficient, and sustainable warehouses—an integral part of India's logistics ecosystem.

Vishwakarma Poojan: Honoring the Spirit of Craftsmanship

In keeping with tradition, EPACK PREFAB celebrated Vishwakarma Poojan at our manufacturing plants and construction sites. Lord Vishwakarma, the divine architect, is revered as the patron of all artisans and engineers, and this pooja signifies the importance of skill, safety, and dedication in every project we undertake. It was a day of reverence and reflection, reinforcing our commitment to excellence in craftsmanship.

Looking Ahead.....

As we wrap up, the achievements of this month highlight EPACK PREFAB's steadfast commitment to continuous improvement, client satisfaction, and excellence in the PEB and prefab construction sectors. Each milestone reflects our dedication to driving innovation and sustainability across every project.

Our journey mirrors the development of India's infrastructure, and we take pride in our contributions to nation-building by delivering world-class infrastructure solutions that are shaping the future of construction. As we continue to innovate and transform the industry, our mission remains clear:

Built in India, Building India.
